

Manor Barn

TISBURY, WILTSHIRE

“From the specialist skills, to the high tech complexity of structural glazing and sophisticated M & E – the team from Greendale have delivered an exceptional project.”

Classic Architecture Company

Our award winning conversion of a derelict Chilmark stone barn to residential accommodation combines the quintessential characteristics of the building with contemporary fittings tastefully designed to meet the needs of modern life.

Constructed around a magnificent new green oak roof structure, Manor Barn features a new kitchen wing, bedroom wing and basement with cinema room.

Employer	Private Client
Architects	The Classic Architecture Company
Surveyors	Jonathan White & Associates
Value	£1.6 million
Duration	16 Months

Construction Notes

Existing barn was completely underpinned and new floor slab constructed with service culvert. The Green Oak roof was pre-fabricated off site and installed over a ten day period. The oak was then shot blasted to bring out the colour and texture of the wood.
