

Poole Audi

POOLE, DORSET

"The team were always friendly, flexible and professional and we are proud of what Greendale built for us. We would have no hesitation at all in recommending Greendale Construction."

Poole Audi

Premium brand car dealership, Poole Audi, commissioned Greendale to redevelop two of its local sites.

The first project involved the conversion of an existing industrial unit into a state-of-the-art accident repair centre, together with associated offices and welfare facilities, and included re-cladding and glazing to the front elevation.

The second project was a complete redevelopment of Poole Audi's main site. Work was undertaken in three stages to ensure that business operations could continue as normal and included full internal and external alterations, as well as new mechanical and electrical installations.

PROJECT 1 – POOLE AUDI ARC

Employer	Poole Audi – Ocean Automotive
